Right to Work in the UK – ILR

## SUMMARY

Results-driven finance professional with internship experience in derivatives trading, risk management, and client-focused capital raising. I combine technical proficiency in Python and financial modelling with hands-on experience in executing Venture Capital transactions, along with delivering data-driven investment recommendations to UCEA Family Office. I am skilled at cultivating investor relationships, structuring customised financial instruments, and implementing dynamic hedging strategies to maximise returns and mitigate downside risk.

## EXPERIENCE

**UCEA Capital Partners** **London, UK**  
*Investment Analyst* Jan 2025 – Jun 2025

- Drafted and negotiated term sheets and subscription agreements for 3+ venture capital transactions, securing £100,000 in committed capital.
- Led end-to-end deal origination, sourcing and evaluating cash-generating investment opportunities, building a high-quality pipeline of potential deals.
- Spearheaded due diligence on 2 early-stage, 2 private equity and 1 private placement investment, enhancing the firm's evaluation process and identifying critical risk factors across diverse sectors.

*Corporate Finance Analyst* Jun 2024 – Dec 2024

- Supported capital-raising initiatives through targeted investor outreach and relationship management, contributing to the family office's co-investment strategy.
- Collaborated in refining transaction documents and pitch decks, enhancing clarity and strategic insight in presentations for investment committees.
- Organised 4+ investor luncheons with 60+ attendees to aid capital-raising efforts, enhancing networking and showcasing investment opportunities to potential co-investors.

**Amius Group Limited** **London, UK**  
*Technology and Trading Analyst Intern* Jul 2023 - Jul 2023

- Gained proficiency in over 3 derivative hedging products at Amius, improving in risk management efficiency and enhancing decision-making accuracy in financial trading scenarios.
- Analysed derivatives pricing using "The Greeks," optimising 3+ hedging products to align with market benchmarks.
- Conducted a comprehensive analysis of the Cocoa futures market and presented findings to senior trading executives to support trading decisions.

## EDUCATION

**University College London** **London, UK**  
*MSc Management (Finance Pathway) • Merit* Sep 2022 - Sep 2023

- Spearheaded trade execution and market scanning, driving a \$750K profit from a strategic Moderna short and optimising risk management for a hedge fund project.

**University of Essex** **Essex, UK**  
*Bachelor of Business Administration • 1:1 with Honours* Oct 2019 - Jul 2022

- Engineered a Glo-Bus simulation overhaul, leveraging economic theory to boost market share by 35% and revenue by 50%, earning a top 25% global ranking.
