

[REDACTED]

---

Results-focused individual who is able to use analytical skills in order to solve problems. An effective leader who thrives in a team environment where people work towards a common goal. Able to effectively communicate complex ideas.

## WORK EXPERIENCE

### **Finance Company, Business Analyst Intern**

June-August, 2013

- Member of team developing a valuation model to be used to determine net present value for all programs that make decisions for existing Company Name credit card accounts in U.S.
- New model is expected to deliver value close to \$50 million
- Used SAS and Excel to analyze data from over one million credit card accounts to develop recommendations for modeling eight revenue and expense drivers that were approved by model risk officer and implemented into the model
- Developed long-term assumption recommendations for two of the largest revenue and expense drivers by comparing data from approximately 700,000 accounts to the model's predicted values in out years

### **Construction Company, Construction Intern**

May-August, 2012

- Assisted in the start-up for \$1 billion data center project in Kings Mountain, NC
- Updated project drawings and specifications to match data from over 200 pre-bid requests for information; monitored site safety; coordinated communication between the owner, design engineers, and contractors
- Presented project overview and status update to CEO and fifteen-person audience at conclusion of internship

### **Gotham Track Club Youth Athletic Program, Cross Country Camp Coach**

June-August 2010, 2011

- Gained leadership experience coaching 55 high school and middle school runners for the duration of the summer
- Communicated training schedules; taught and lead running form drills; advocated team leadership by senior members of cross country team
