

Booz | Allen | Hamilton

Solutions Engineering & Design Internship

This internship program is geared towards students who have diverse backgrounds and are equipped to solve the complex, multidimensional problems that Booz Allen Hamilton consultants face every day. We are looking for future technical leaders who have a passion for technology as well as an interest in business areas.

Interns will spend most of their time working for a Booz Allen Hamilton team on client and marketing projects. One day per week, interns will meet in teams to consider a current, real-world problem that our Government clients face, culminating in a final written deliverable and presentation to clients and upper management. Interns will gain critical teamwork skills and better understand how to fuse technical and business knowledge to satisfy customer needs.

Interns will also have the opportunity to interact with some of Booz Allen Hamilton's thought leaders and expand their professional and social networks through organized meetings with upper management and networking events with other interns.

Please note "SEDI Internship" in the subject line of your e-mail

In addition to your resume submission, please visit our Web site at www.boozallen.com/careers and create your online profile. As part of your application, you must create your online profile to be considered.

Applicants selected will be subject to a security investigation and will need to meet eligibility requirements for access to classified information.

To be eligible for this position, students should:

- Be enrolled in a undergraduate or graduate degree program in a technical area (e.g. Computer Science, Computer Engineering, Information Technology, Systems Engineering) or business-related area (e.g. MBA, Economics)
- Have a demonstrated interest in both technical and non-technical (e.g. business) disciplines
- Be graduating from their degree program no later than Summer 2010
- Be able to obtain and maintain a Government security clearance (requires US Citizenship)
- Have a GPA of 3.0 or higher

“Booz Allen Hamilton gave me a great opportunity this summer when I was selected to participate in the SEDI project...The internship helped me grow as an individual and a team player in more ways than one.”

– 2008 SEDI Intern
