Professional Experience and Extracurricular Activities

Client Adviser

Jun 13 – Aug 13

- Analyzed market data, utilizing technical analytical tools such as MACD and Bollinger bands
- Synthesized large amounts of macroeconomic data, to forecast future price movements in terms of volatility and time period.
- Planned, organized and presented introductory training seminars for new interns on the basics of FX and technical and fundamental indicators.
- Collaborated with colleagues to create a presentation for potential new clients on the benefits of trading FX.
- Attended networking events, organized meetings with new clients and assisted in the customization of clients investment portfolio's.
- Analyzed the competitive landscape of the FX market in China and assessed the pros and cons of the company's current strategy.

Networking and Investment Society

- Appraised over 50 companies from different sectors to design a comprehensive investment portfolio.
- Our selection criteria was based on the concept of value investing, we averaged 18% p.a over two years.
- Integral part of a team that won a society competition in 2012, where we had to create an investment portfolio focusing on risk diversification.

Primary School Summer Camp

Activities Coordinator

Jul 12 – Sep 12

- Coordinated with colleagues to develop an activities program for the students, with the aim of evolving their creativity and communication skills whilst incorporating fun.
- Personally spearheaded the organization of competitions at the summer camp; I customized the schedule to coincide with regular planned activities.
- Oversaw the children's dietary requirements; this entailed knowing of any allergies and inspecting the student's lunches and removing any potential risks.
- Pioneered the idea of student led activities; the concept behind this idea was to develop the students leaderships skills and was deemed a huge success by the camp leader.
