M: (mobile) E: (email)

Education

Non-target, State Master of Finance - WAM 79 GPA 3.65/4	<i>Mar 2013-present</i>
Non-target Bachelor of Science (Agriculture)	<i>2008-2011</i>

Employment History

Research Agronomist Major Research Firm Coordinated and managed numerous scientific research trials throughout Australia	<i>Feb 2012-present</i>
Junior Trader Major US commodity trading firm Provided analytical and administrative support to the trading desk	<i>Oct 2011-Feb 2012</i>

Key Strengths

Analytical Skills

- Highly proficient in the use of the Bloomberg platform and Excel VBA, which were used to provide in-depth analysis of the FX market and agricultural commodity markets for the trading desk at (trading firm).
- Able to solve complex problems under pressure and articulate these in a clear and precise fashion. Was commended by key clients such as Monsanto and Dow Agrosiences for the quality of scientific reports completed at (scientific research firm).

Communication Skills

- Extremely effective written and oral skills. Presented at (scientific research firm) annual company meeting in 2013 outlining significant technology adoption strategies for the business. These implementations have transformed the productivity and accuracy KPIs within the company; reducing field assessment times by more than 25%.
- Provided a daily market analysis report for (trading firm) to the trading team and key clientele via the company website and large scale email distribution.
- Displayed strong self-confidence and entrepreneurial flair to identify key issues facing (scientific research firm). Was responsible for the key breakeven analysis that led to the importation of major capital purchases from Denmark. This analysis was presented to the Board of Directors and was praised as being of high quality and great detail.

Self Driven

- Strong emphasis on performance; sets high standards, goal orientated, ambitious and able to maintain performance under pressure. Showed initiative and creative thinking at (second trading firm) in evaluating a key freight model, which led to enormous beneficial gain for the company.
- Continually striving for self-improvement and challenges. An active member of FINSIA and the (non target) Leadership Centre. Currently learning Mandarin.
