PROFESSIONAL EXPERIENCE

United States Army

Accountability and Asset Manager

Helicopter Pilot

Healthcare Supervisor

U.S., Germany, Iraq, Kuwait, Afghanistan, South Korea

January 2012 – Present

June 2011 – Present

July 2004 – June 2011

- Guaranteed appropriate use and distribution of company assets worth \$70 million
- Served as Office Leader and managed team of 5 in accountability and asset management division, maintained Department of Defense financial regulatory requirements, achieved highest marks
- Earned recognition as one of top officers in helicopter pilot position and adviser throughout tenure
- Created detailed financial models such as budget, forecasting, and DCF to project cash flows and asset valuations; measured risk and assessed various financial metrics such as periodic spending, acquisition costs, depreciation, operational expense to analyze projects
- Facilitated management of UH-60 helicopters, ground tactical vehicles, avionics, and radio equipment including updating financial models and weekly, monthly, and ad-hoc reports for project forecasting, mission execution, and month-end processes
- Managed financial assets worth c. \$24 million, utilized risk management by framing depreciation value along with predictable loss and forecasting projected usage throughout operational time-period, allowing organization to save 7% more than their counterparts at end of deployment; prepared briefs of results to senior management
- Performed planning and execution of military operations and missions utilizing digital resources
- Worked with the US Ambassador to Hungary and provided briefing to commanders and dignitaries in foreign nations, including Afghanistan, Austria, Germany, Poland, Romania, South Korea
- Streamlined all financial processes, increased efficiency by 12%, communicated results to senior management
- **Selected Project Experience:**
 - *Management of Anonymous Unit's Assets (AUM US\$300 million)*
 - Prepared DCF, budget and forecasting models to determine feasibility of transferring assets to foreign customers and purchasing new ones; analyses showed that acquisition would generate ROI of 57% below threshold, leading to potential loss of \$120 million, recommended that acquisition be delayed
 - *Management of Anonymous Unit & Anonymous Task Force's Assets (AUM US\$60 million)*
 - Coordinated project status calls, delivered project status, regulatory changes, process enhancements, and foreign contract through Afghanistan personnel along with NATO forces, resulting in project completed in one year during combat deployment period

Invest Like The Street

Boston, MA

Analyst

February 2018 – June 2018

- Completed assignments covering topics such as accounting and valuation (DCF, M&A/LBO modeling)
- Compiled research reports, learned about fundamentals of value investing, built DCF & full project model on WD-40 Company; analyses showed that ROA was 39% TTM, recommended that shareholders invested in company
