
Summer Internship - Analyst

Education

Non target school here

European big city here

Non target school is currently ranked top 30 in the ft ranking, plus some accreditation (2 lines in total)

Bachelor Degree in Economics (GPA 16.38/20 on the first year).

2013-Expected 2016

Target University (top 8 european)

The other city

Accepted for a semester abroad in 2015/2016

September 2015-January 2016

Professional experience

Summer Internship

July to September 2014

The bank in question is one of the biggest “my country” retail banks, with total assets of 20+ Billion € (actual number here), where I worked on the Risk Management Department, that oversees over 16+ billion € (same as above) in credit.

- Single-handedly researched, compiled and documented a Basel III report for the Company’s Credit Database;
- Handled Credit Risk models for companies and private clients, with a focus on pricing;
- Reprogrammed VBA in Excel, turning 1500+ lines into 83;
- Assisted on several other tasks, such as monthly reports elaboration;

Awards

Honor Roll on the last two years of Highschool, with consecutive GPA’s of 17 and 18.

Computational skills

MS Office

Advanced **Excel** knowledge, including VBA.

Past experience **with statistical tools** (Asense, Stata).

Other activities and interests

Volunteer work - supervising a primary school playground during lunch hours and helping organize received food at a food bank.

Students Union Fiscal Responsible, last year of high school.

Soft Skills development events attendance (certified).

Intercollegiate hall of residence, participating on a social and cultural life enhanced by international students studying a large variety of subjects in different colleges. (I seriously don’t regard this as important, but just to upload a complete page version)
